

Global Space Challenge

Take part in an online virtual space mission from former NASA astronaut, Dr Gregory Chamitoff!

Check out the students participating in the 2023 competition!

- Conduct virtual space missions
- Learn from astronauts, engineers and scientists
- Design spacecraft and fly to other worlds
- Build a sustainable habitat using local resources
- Experience spacewalking and explore the solar system
- Compete for the best mission design

Interested in taking up the challenge?
